DETAIL ACTION

This is a response to the applicant's filing on April 18, 2006 with original claims 1-8 currently presented in the instant application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as following:

In the claim, claim 1, line 7, delete "combining" and insert --comparing--.

The above noted amendment has been made to clarify the claim language in order to expedite a process of the application in an allowable condition.

Reasons For Allowance

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a communication diode driver circuit (CDDC) for stabilizing

at least one communication diode (CD) selectively illuminating in response to incoming digital data pulses, the communication diode driver circuit by comprising at least one Communication Light Emitting Circuit (CLEC), wherein each CLEC of said at least one CLEC including a driver unit for comparing a pulsed analog data voltage $ADV(t)$ corresponding to the incoming digital data pulses, and a variable shift voltage $SV(t)$ for issuing a pulsed drive voltage $DV(t)$ for driving a selective branch of light emitting diodes , and each CLEC of said at least one said CLEC including a closed loop feedback unit for tapping said LEDs branch for continuously monitoring a pulsed monitor voltage $MV(t)$ directly proportional to said LED drive current $I_{LED}(t)$ for increasing said shift voltage $SV(t)$ up to a maximum shift voltage SV_{max} less than a threshold drive voltage for continuously illuminating said at least one CD after a long absence of incoming digital data pulses, except for intermittently stepwise decreasing said shift voltage $SV(t)$ in response to each single incoming digital data pulse contributing to a LED drive current as required in claim 1.

3 The remaining dependent claims are allowable for at least above reason.

4 The prior art made of record and not relied upon is considered pertinent to applicants' disclosure listed on PTO- 892 attached form. None of cited/record prior arts stands alone or combination with others discloses all limitation required in claim invention.

Correspondence

Any comments considered necessarily by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
